What is the Quiz?

The quiz is a free tool designed to give small business owners a general indication of how their website may be performing. It collects a certain amount of user inputted data, and where a URL is provided, performs a check against publicly available data. It processes it to provide the user with a non-binding report. The processing of the data and construction of the report is done manually by Meva Development.

For details on data processing, please refer to our most recent Privacy Policy available through the website: mevadevelopment.com
